## Market Outlook and Regulatory Ecosystem

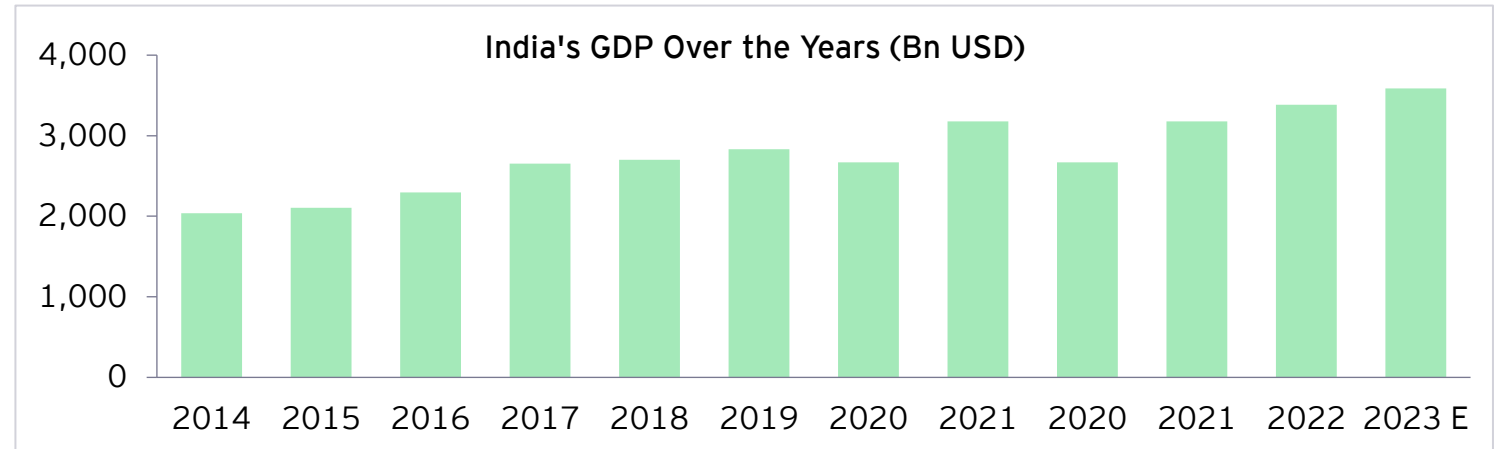

# Air transportation in India - macroeconomic overview

Increased demand for air transportation driven by the continuing economic growth of India

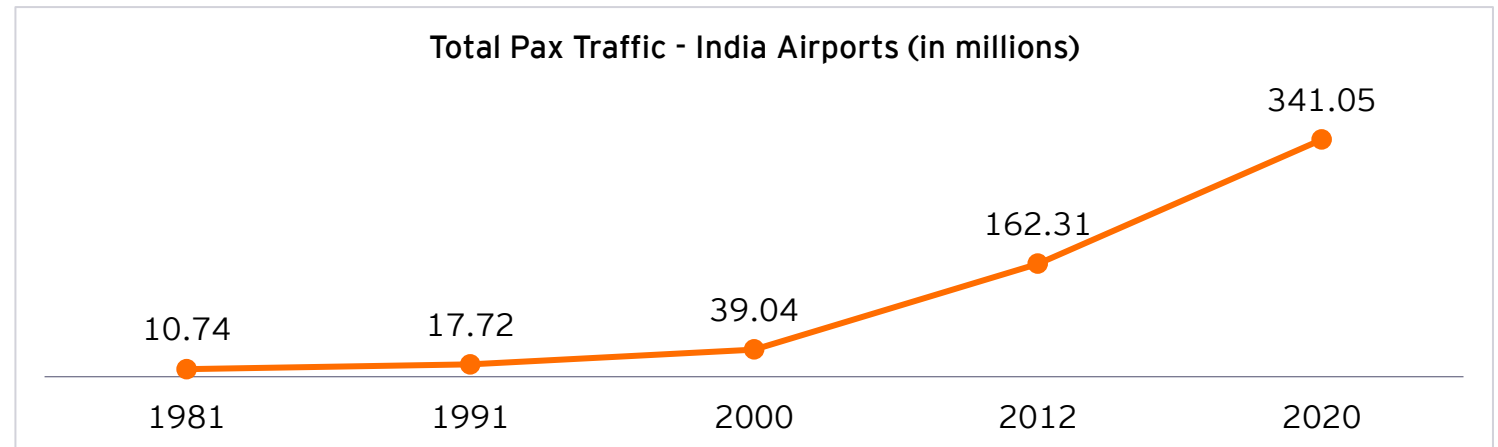

**US\$16 billion**  
Indian civil aviation market

**5<sup>th</sup> Rank Globally**  
Domestic passenger traffic

In India, the air transport sector supports **1.5 percent** of the country's GDP and **6.2 million jobs**. The rising working group and widening middle-class demography is expected to boost demand for air travel in India.

# Industry overview

Strong FTO demand likely to continue with demand for pilots also rising

## Fact Sheet

**35**

DGCA approved FTOs as of May '23

**15**

New FTOs in the pipeline

**264**

Combined FTO fleet size

**27**

Aircraft with India's largest FTO - Redbird Flight Training Academy

**1,165**

CPLs issued by DGCA in 2022 (all time high)

**3**

Minimum requirement of aircraft to register as FTO

*\*as per an article dated 24Mar2022 published by Airbus.*

Given the current fleet size and capacity among FTOs, it is estimated that an **additional ~100 training aircraft** will be required to cater to the rising demand for pilots in India
